#### **Rebellion years**

Safe

The most important word in my dictionary

Sneaking out the window

Finding the end of a bottle

Exploring anatomy

A right of passage for many in there youth

As youth turns to aged

Things always look better in hindsight

Unless there's nothing to look back on

No funny stories

No drunken laughs

Just the silence of the past

It is easy to live through a story

But finding my own has proven to be difficult

An uphill battle

With no clear victors

Safe

The most regretful word in my dictionary
