

8a - A Shot in the Light.

**A Shot in the Light.**

A shot in the dark is deemed spontaneous,  
Words commonly used to emphasize a mysterious event,  
But this phrase is quite extraneous.  
In fact, all things are made to be relevant.  
Nothing is ever by surprise,  
For a plan is set by our heavenly host.  
From the morning we rise to the time that flies,  
He's planned it all to be valued most.  
The plan is the day while coincidence is the night.  
Without the light of the day, our Lord,  
A future would cease to burn bright,  
But His plan for our days is our greatest reward.  
Day in and day out  
our God proves His might,  
And without a single doubt  
His plan is a shot in the light.
